Chiara Anselmo | Curriculum Vitae

Contact

Email: c.anselmo@campus.unimib.it

Address: Università degli Studi di Milano-Bicocca, Piazza della Scienza 3, 20126 Milano, Italy.

Citizenship: Italy, EU.

Education

Università degli Studi di Milano-Bicocca **Milan, Italy**
Ph.D., Physics and Astronomy *2024-current*
- *Supervisor*: D. Gerosa.

Università La Sapienza **Rome, Italy**
Master's degree in Astronomy and Astrophysics *2022-2024*
- *Final degree grade*: 110/110 with distinction ("cum laude").
- *Average class grade*: 29.5/30 with 3 distinctions ("cum laude").
- *Thesis advisors*: P. Pani, A. Maselli.

Università degli Studi Federico II **Naples, Italy**
Bachelor's degree in Physics *2019-2022*
- *Final degree grade*: 110/110 with distinction ("cum laude").
- *Average class grade*: 29.6/30 with 8 distinctions ("cum laude").
- *Thesis advisor*: S. Capozziello.

Liceo Scientifico Torricelli **Naples, Italy**
Scientific High School degree *2014-2019*
- *Final grade*: 100/100.

Metrics

Publications: **1** papers published in major peer-reviewed journals, **1** paper in submission stage,
0 other publications (white papers, proceedings, etc.)
(out of which **2** first-authored papers and **0** papers covered by press releases).

Summary metrics reported using ADS and InSpire excluding [including] long-authorlist papers:
Total number of citations: >100 [>100] — **h-index**: 2 [2].

Presentations: **6** talks at conferences, **1** talks at department seminars, **2** posters at conferences,
(out of which **2** invited presentations),

Awards

Career prizes:

- *Milla Baldo Ceolin - Women in Theoretical Physics* *2024*
- *Early career best poster award - GR/Amaldi 2025* *2025*

Teaching

Taught classes:

- *Year 1 student tutoring in Physics.* *2025-2026*

Physics BSc, Milano-Bicocca.

- *Mathematics tutoring to middle and high schoolers for "We Solve Problems".* *2026-current*
  Milano-Bicocca.

Service

Memberships

- TEONGRAV national initiative (Gravity Theory), National Institute for Nuclear Physics (INFN).
- LISA Consortium, community member.

Skills

Programming languages: Python

Other scientific tools: LaTex, git

Languages: English (fluent), Italian (native).

Hobbies

Reading • Anime • Cooking • Walking in nature • Drawing

Full publication list

Submitted papers:

1. *Population inference of eccentric binary black holes using asymptotic constants of motion.*
   C. Anselmo, G. Fumagalli, D. Gerosa.
   arXiv:2611.15738 [gr-qc].

Papers published in major peer-reviewed journals:

1. *Black-hole ringdown with templates capturing spin precession: a reanalysis of GW190521.*
   C. Anselmo, C. Pacilio, D. Gerosa.
   Physical Review D 113 (2026) 124047. arXiv:2512.05193 [gr-qc].

Full presentation list

Invited talks marked with *.

Talks at conferences:

6. *Quasi normal mode detectability by future space detectors.*
   Lunar Gravitational-Wave Antenna Workshop, Rome, Italy, Oct 2024.
5. *Ringdown analysis with simulation-based inference.*
   Theoretical Horizons in Unraveling Relativity, Astrophysics, and Mergers (THURAM), L'Aquila, Italy, May 2025.
4. *Improved gravitational wave parameter estimation with SBI and secondary mode marginalization.*
   AIslands 2025: Bute, Rothesay, Isle of Bute, Scotland, May 2025.
3. *Ringdown analysis of GW190521 with simulation-based inference.*
   SIGRAV, Milan, Italy, Sep 2025.
2. *Chasing evidence of spin precession in the ringdown: a fresh look at GW190521.*
   TEONGRAV workshop, Pisa, Italy, Jan 2026.
1.* *Can we 'patch' eccentricity onto precessing QNM amplitudes?.*
   Ringdown in Lisbon workshop, Lisbon, Italy, Oct 2026.

Talks at department seminars:

1.* *Two complementary approaches to gravitational-wave data analysis.*
TAPIR seminar, Caltech, California, USA, May 2026.

Lectures at PhD schools:

Posters at conferences:

2. *Ringdown analysis with SBI and secondary mode marginalization.*
European AI for Fundamental Physics Conference (EuCAIFCon) 2025, Cagliari, Italy, Jun 2025.

1. *Ringdown analysis with SBI and secondary mode marginalization.*
GR24 and Amaldi16, Glasgow, UK, Jul 2025.

Outreach talks:
